Data Analytics and Visuailzation Lab Journal

Student Name: **Roll No:**

Class: **Academic Year:**

Lab Objectives:

	Description
1	To effectively use libraries for data analytics.
2	To understand the use of regression Techniques in data analytics applications.
3	To use time series models for prediction.
4	To introduce the concept of text analytics and its applications.
5	To apply suitable visualization techniques using R and Python.

Lab Outcome (LOs):

LO	Description
LO 1	Explore various data analytics Libraries in R and Python.
LO 2	Implement various Regression techniques for prediction.
LO 3	Build various time series models on a given data set.
LO 4	Design Text Analytics Application on a given data set.
LO 5	Implement visualization techniques to given data sets using R .
LO 6	Implement visualization techniques to given data sets using Python.

AI and Data Science Department

Program Outcomes (PO):

PO1) Engineering knowledge: Apply knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2) Problem Analysis: identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3) Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet specified needs with appropriate consideration for public health and safety, and the cultural, societal, and environmental considerations.

PO4) Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5) Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

PO6) The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7) Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8) Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9) Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10) Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11) Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12) Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Programme Specific Outcomes (PSOs)

PSO1) Professional Skills: Understand, analyze and develop essential proficiency in the areas related to artificial intelligence and data science like mathematics, computational methods and statistics.

PSO2) Successful Career: Ability to design and implement novel solutions using state of the art Artificial Intelligence and Data Science techniques such as Machine Learning, Reinforcement and Deep Learning, Natural Language Processing leading to successful careers.

Programme Educational Objectives (PEOs)

PEO1: To inculcate the fundamentals of science and engineering concepts essential for solving real world problems in the field of Artificial Intelligence and Data Science.

PEO2: To empower students with knowledge and expertise to accomplish Socially Innovative Project with ethical practices in the area of Artificial Intelligence and Data Science.

PEO3: To enable graduates to participate in lifelong learning, innovative research and product development in the area of Artificial Intelligence and Data Science

LO-PO-PSO Mapping :

AI and Data Science Department

List of Experiments:

Sr No	List of Experiments	LO's	BL's	Sign
1	Getting introduced to data analytics libraries in Python and R	LO1	BL3	
2.	Simple Linear Regression in Python and R.	LO2	BL3	
3	Multiple Linear Regression in Python and R.	LO2	BL3	
4	Time Series Analysis in Python	LO3	BL3	
5	Implementation of ARIMA model in python	LO3	BL3	
6	Implementation of Time series Decomposition and ACF and PACF	LO3	BL3	
7	Perform the steps involved in Text Analytics in Python & R	LO4	BL5	
8	Set Up a D3.js Environment, Select Elements in D3, Modify Elements in D3,Data Loading in D3	LO5, LO6	BL3	
9	Create a World Map with d3.js	LO5, LO6	BL3	
10	Event Handling with D3.js	LO5, LO6	BL3	
11	Data Visualization using Python and R Libraries.	LO5, LO6	BL3	
12	Mini-Project / Content Beyond Syllabus (CBS)	LO1 to LO6	BL6	

AI and Data Science Department

Evaluation:

- Experiments are evaluated based on mock viva taken on experiments.
- Journals are evaluated based on soft skills and presentations.
- Evaluation is based on the following table:

Range	Grade
80 and above	Outstanding (O)
75.00 – 79.99	Excellent (A)
70.00 – 74.99	Very Good (B)
60.00 – 69.99	Good (C)
50.00 – 59.99	Fair (D)
45.00 – 49.99	Average (E)
40.00 – 44.99	Pass (P)
Less than 40.00	Fail (F)

Mark Distribution for Journal & Mini Project

Journal Parameter	Marks	Mini-Project Parameter	Marks
Program Execution	3 Marks	Mini project Execution	3 Marks
Documentation	3 Marks	Documentation	3 Marks
Timely Checked	2 Marks	Timely Checked	2 Marks
Viva	2 Marks	Viva	2 Marks
Total	**10 Marks**	**Total**	**10 Marks**

Name Of Lab Teacher: **Mrs. Lifna C S**
